**25 INT. SALVAGE YARD GARAGE - DAY****25**

The **guys** are **working** in and around the **main garage** as Ken walks in through the front door of the shop. The camera follows him inside as he looks for Grimy.

**KEN**

(talking to Grimy)  
Did that rear-end come in for the Mustang?

**GRIMY**

Yes sir, I put it right behind the Beast, boss man.

They look over and see The Beast, a **66 Mustang** they have been working on.

The **old rear end** is off and sitting to the side while the **brand new one** is there on the garage floor right behind The Beast.

**KEN**

You sure it's the right one this time?

**GRIMY**

(with pride)  
Yup, I double checked all the numbers and it lines up perfect. So, I guess it should work.

**KEN**

You guess? Shoot Grimy.  
(He Takes a quick swig from his)  
flask, thinks a second and)  
Good! What time will it be ready?

**GRIMY**

Ready? What time you say? Huh, how about Wednesday. If we don't 'stall', the Beast will ready for you to take her for a 'spin' in no time.

KEN

Not funny, Grimy... Grab Nub, Harry, and whoever else you need, and get it done tonight. Tell them I said to drop everything and help. We need to test drive it tonight to make sure there are no problems!

GRIMY

Yes sir!  
(with a half salute)  
I'm on it, boss man! I'm on it!  
(to the crew in the garage)  
Crap! Nub, Harry. Let's rock!  
The boss needs this car finished tonight!

Grimy runs OS calling and screaming some names. Ken leaves out the back of the shop and turns the corner and out of sight.
